Problem – Solution Fit Template:

Problem–Solution Fit is a framework used in entrepreneurship, product design, and innovation to ensure that the solution you're building directly addresses a real customer problem in a way that aligns with their current behaviors and needs.

Purpose:

- Solve complex problems in a way that fits the state of your customers.**
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.**
- Sharpen your communication and marketing strategy with the right triggers and messaging.**
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.**
- Understand the existing situation in order to improve it for your target group.**
